Lane Closures for Intersection Improvement Project at Ogden Avenue and La Grange Road

CHICAGO – The Illinois Department of Transportation (IDOT) announced that daily lane closures will take place at the intersection of Ogden Avenue (U.S. 34) and La Grange Road (U.S. 12/20/45), in La Grange, beginning, weather permitting, Tuesday, April 18. The closures are necessary for an intersection improvement project.

Starting Tuesday, Ogden Avenue and La Grange Road will be reduced to one lane in each direction at the intersection during daytime hours, when necessary. Temporary lane closures also will occur on Ogden Avenue from east of La Grange Road to Burlington Avenue.

The scope of the project includes widening the intersection to add a right turn lane from westbound Ogden Avenue to northbound La Grange Road, as well as realigning the intersection of Ogden Avenue and Locust Avenue to install a traffic signal at that location. The project also consists of roadway resurfacing and traffic signal modernization, as well as new curb and gutter, sidewalk, lighting, sewer and drainage structures.

The overall project will be completed in Fall 2017.

Motorists are encouraged to seek an alternate route, as delays are expected when workers are present. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
